

COLLABORATIVE MINUTES ---- AND ---- 11/2/----

1. INQUIRY DISCUSSION- BLASTER (Junior School) and How To wiki (Senior School).

2. Overdrive-

Discussion on difference between options for Junior School
Reasons for separate collections- to be able to customise two quite different audiences, not a huge difference in cost, currently there is a necessity to duplicate resources to cater for differentiated learning styles across the school and individual student profiles.

3. IPADS- What is the impact on the Library? There is a need for a variety of resources for research, we are keeping track of use of the library. Lower ability students can not rely on the internet and therefore is there a need for more individual assistance? Do higher end students need extension in the way they use resources?

4. OVERDUES-Consistency of billing and refunding in both libraries

5. Future discussion with Overdrive re publishers- availability of certain resources for some places and not to others.

Future discussion – setting up consistent policies across the school- eg Selection, contentious resources.

Regards
